主任委員

何弘能

Permission of Clinical Trial National Taiwan University Hospital

Date: Aug-27-2008

The protocol entitled " *Occupational Herniated intervertebral disc (HIVD) in Taiwan-physical, occupational, and genetic interaction*" [NTUH-REC No.:200805047R], submitted by investigator Dr. Yue-Liang Leon Guo, Department of Environmental and Occupational Medicine, has been approved by the 141st meeting of Research Ethics Committee of the National Taiwan University Hospital on Aug 1, 2008. The committee is organized and operates according to GCP and the applicable laws and regulations. The Investigator should submit written summaries of the trial status to the REC annually, or more frequently, if requested by the REC.

Hong-Nerng Ho, M.D.

Chairman
