

Supplementary Figure. 1 K-M survival curves showed that DCBLD2 could effectively stratify patients with different disease-free survival in MTAB-6134 cohort **(A)** and TCGA cohort **(B)**.

Supplementary Figure. 2 Expression of DCBLD2 in PDAC patients classified by histological grade in three independent cohorts. The statistical significance of differential expression was assessed by Wilcoxon test (* $p < 0.05$, ** $p < 0.01$, *** $p < 0.001$, **** $p < 0.0001$).
