

125

126 Figure 12. (a) - (e) Time series plot of LOS changes at 5 spots in the descending  
 127 interferogram in Figure 9b. Average of LOS change in an area of  $0.05^\circ \times 0.05^\circ$  centered  
 128 at the point shown in each diagram. Error bar indicates 1-sigma. Red line is the best fit  
 129 exponential decaying curve, whose characteristic time is shown in the diagram. (f)  
 130 Daily precipitation in mm at JMA Kumamoto station in the Kumamoto City [JMA,  
 131 2020].
