

Supplementary Figure 1 Kaplan-Meier estimates of distant relapse-free survival according to different family history scoring systems in all patients (A-D) and node-positive patients (E)
 Abbreviations: DRFS, distant relapse-free survival; HR, hazard ratio; CI, confidence interval; NeoFHS, Neo-Family History Score.

Supplementary Figure 2 Kaplan-Meier estimates of visceral metastasis-free survival according to different family history scoring systems in all patients (A-D) and node-positive patients (E)
Abbreviations: VMFS, visceral metastasis-free survival; HR, hazard ratio; CI, confidence interval; NeoFHS, Neo-Family History Score.
