Prostate Cancer UK Outcome Notification 2013: PCUK/CSO Clinical Research Grants
Application Reference: CSO-PG13-005

Dear Mr Nabi,

Thank you for your submission to the Prostate Cancer UK / Chief Scientist Office 2013 call for Clinical Research Grants.

We are pleased to inform you that your grant application has been selected for funding.

Reference No.: CSO-PG13-005
Project Title: Multiparametric MRI characterisation and guided biopsy of the prostate in men suspected of having prostate cancer
Award amount: £499,936.00

Please refer to the above reference number in all future correspondence regarding this grant.

Congratulations on your achievement - this year's funding round saw a very high level of quality and competition, and we were only able to award funding to the top ranked 12 of 68 peer reviewed applications.

Please let us know if you wish to receive feedback on your application.

Please note: Before we can issue your contract, we require you to respond to the following query raised by the Research Advisory Committee as a condition of this award:

- The committee was uncertain as to whether this proposed research overlaps with that of the PROMIS trial (which is already underway). Please could you therefore clarify how this work will differ from that of the PROMIS study.

Please can you send your response to research@prostatecanceruk.org no later than **5pm Friday 8 November 2013**.

We will send you a formal contract containing the grant terms and conditions in due course. In the meantime, **please can you send us formal acceptance of this award, along with your response to the above query, by Friday 8 November 2013.**

Following your acceptance of this award, we may wish to contact you to develop promotional materials about your work, including interviews, quotes and photographs. At present, the majority of our research funding is a result of the generosity of the Movember Foundation, thus members of staff from PCUK or Movember may wish to contact you from time to time to discuss your research.

To this regard, we would be grateful if you could please provide a short quote which could be used in any future Prostate Cancer UK communications associated with your grant. We would like this quote to highlight the value of a Prostate Cancer UK grant to forwarding your research, and that of the prostate cancer research field in general, and/or how this is of benefit to men with prostate cancer. Please could you provide this quote along with your formal acceptance of award.

Congratulations on your success and we look forward to working with you on this grant. Please feel free to contact us if you have any queries.

Yours sincerely,

Dr Kate Holmes
Head of Research, Prostate Cancer UK
