Training Needs Assessment: Core capacities at designated groundcrossings

Pagina 1

Introduction:

Dear Sir/Madam,

We hereby present a questionnaire aimed at people responsible or (partly) involved in preparedness and response regarding cross-border health threats, at designated groundcrossings in Europe.

Background

This training needs assessment is part of the Healty Gateways Joint Action 2018, which aims to improve preparedness and response regarding cross border health threats, and enhanced implementation of the IHR core capacities for designated points of entry in Europe. Part of this Joint Action is the development of a training program.

Goal

The goal of this questionnaire is to assess the training needs of people involved in hygiene and infectious disease prevention and control at designated groundcrossings. With the results of this assessment, we aim to set up relevant and effective training sessions.

Who are we looking for?

We are looking for people at the operational and management level at designated groundcrossings, who are involved in a.o.:

- inspection of conveyances;
- disinfection/decontamination of cargo;
- quarantine or assessment of ill travellers;
- preparedness planning, training;
- and/or crisis management work.

It might be possible that these tasks belong to several professions at your groundcrossings. Please do not hesitate to consult any colleagues during completion of the questionnaire.

If you have any questions, please send an e-mail to lcionderzoek@rivm.nl

Completing the questionnaire will take about **20 minutes**. Please complete the questionnaire before **9 November 2018**.

Thank you.

This online questionnaire was funded by the European Union's Health Programme (2014-2020).

The content of this online questionnaire represents the views of the author only and is his/her sole responsibility; it cannot be considered to reflect the views of the European Commission and/or the Consumers, Health, Agriculture and Food Executive Agency (CHAFEA) or any other body of the European Union. Privacy and personal data protection statement

This questionnaire is developed as part of the Joint Action Healthy Gateways. The data will be analyzed by the National Institute for Public Health and the Environment (RIVM) in the Netherlands (Bilthoven) (contact e-mail: LCionderzoek@rivm.nl). The questions regarding chemical threats will be analyzed by Public Health England. In accordance with the EU General Data Protection Regulation we ask your consent for the use of your data:

- The purpose of the information collected in this form is to assess training needs and to organize trainings on core capacity requirements for points of entry.
- The data can be used for (scientific) publications. It will not be further utilized for any incompatible purpose(s) and will not be passed to any third parties.
- Your contact details will only be used for communication with you, e.g. for updates and additional questions on the subject. Your contact details will be removed and erased as soon as this communication is not opportune anymore or on your first request. Your data will not be used for automated decision making. The data will be stored for 10 years.

Consent is required to process your data.

By ticking the box below, I agree and give my consent to the processing of my personal information including on this form, according to the above statement. *

Please be informed that you have the right to access, correct, delete, restrict your data processing, and submit a complaint to the Data Protection Authority in accordance with Articles 15-22 of the General Data Protection Regulation (GDPR). Deleting, correcting or restriction of your data will not affect the processing of the data before its withdrawal. In order to exercise your rights you can contact us by email at the email address: LCIonderzoek@rvm.nl.

Personal details - Please provide the following information:

Gender: *

Country: *

Name of the designated groundcrossing: *

The sector you work in: *

The level you work at: *

Highest completed education: *

Job title: *

Years of experience in your current job: *

Do you have management tasks regarding the designated groundcrossing?
If yes, how much of your working time do you spend on these tasks? *

Do you have operational tasks regarding the designated groundcrossing?
If yes, how much of your working time do you spend on these tasks? *

Instruction:

The questionnaire is divided into three parts. For each part, you will be asked to do the following:

- Please rate how important you think a topic is regarding your designated groundcrossing.
- Please rate your training need for each topic.
- Please select your preference for a type of training.

Overview:

The questionnaire is divided into three parts.

First, services that could be available at all times are being assessed. Topics are:

- health risks at designated groundcrossings
- a safe environment for travellers
- routine inspection of conveyances
- ill travellers

Second, capacities that should be available in case response (a PHEIC)* is needed. Topics are:

- the public health emergency plan
- recommended measures
- affected persons
- affected animals

Third, a section follows about chemical hazards at groundcrossings

* during events that may constitute a public health emergency of international concern (PHEIC): an event that constitutes a public health risk to other countries through the international spread of disease and which may require an coordinated international response.
