

Table S2. Description of the unrelated TRB genes in the *Capra hircus* chromosome 4 genome assembly (NCBI Reference Sequence CM_004565.1). The position of all genes and their classification and functionality are reported.

Gene classification	Functionality	Position (complement)
MOXD2	F	14992271-15000174
TRY1	F	14973346-14979051
TRY2	F	14962597-14969667
TRY3	F	14951833-14955674
TRY4	F	14927506-14931123
TRY5	F	114553420-4549667
EPHB6	F	14442487-14449079
