

**Case report consent form**

**For a patient's consent to publication of images and/or anonymized information about them in journal publications.**

Patients Name: Sally Begg

Description of the photo, image, text or other material (**Material**) about the patient.

Images from CT scans and histopathology images

Provisional title of article in which Material will be included:

Perinephric endometriosis: a case report

SALLY J. BEGG

**CONSENT**

I  give my consent for the Material about me/the patient to appear in a journal publication.

**I confirm that I: (please tick boxes to confirm)**

**have seen the photo, image, text or other material about me**

**have read the material to be submitted**

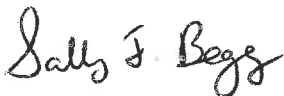

**am legally entitled to give this consent.**

I understand the following:

- (1) The Material will be published without my/the patient's name attached, however I understand that complete anonymity cannot be guaranteed. It is possible that somebody somewhere - for example, somebody who looked after me/the patient or a relative - may recognise me/the patient.
- (2) The Material may show or include details of my/the patient's medical condition or injury and any prognosis, treatment or surgery that I have/the patient has, had or may have in the future.
- (3) The article may be published in a journal which is distributed worldwide. BMJ's publications go mainly to doctors and other healthcare professionals but are also seen by many others including academics, students and journalists.
- (4) The article, including the Material, may be the subject of a press release, and may be linked to from social media and/or used in other promotional activities. Once published, the article will be placed on a BMJ website and may also be available on other websites.
- (5) The text of the article will be edited for style, grammar and consistency before publication.
- (6) I/the patient will not receive any financial benefit from publication of the article
- (7) The article may also be used in full or in part in other publications and products published by BMJ and/or by other publishers. This includes publication in English and in translation, in print, in digital formats, and in any other formats that may be used by BMJ or other publishers now and in the future. The article may appear in local editions of journals or other publications, published in the UK and overseas.
- (8) I can revoke my consent at any time before publication, but once the article has been committed to publication ("gone to press") it will not be possible to revoke the consent.
- (9) This consent form may be retained securely and in confidence by the journal in accordance with the law, for no longer than necessary. Personal data provided in this form will be used and retained in accordance. The person obtaining consent will provide the journals private policy on request.
- (10) I have/the patient has had the opportunity to comment on the article and I am satisfied that the comments, if any, have been reflected in the article.
