

1 Fulleylove-Krause et al., 2020

2 Supplemental Figure Legend:

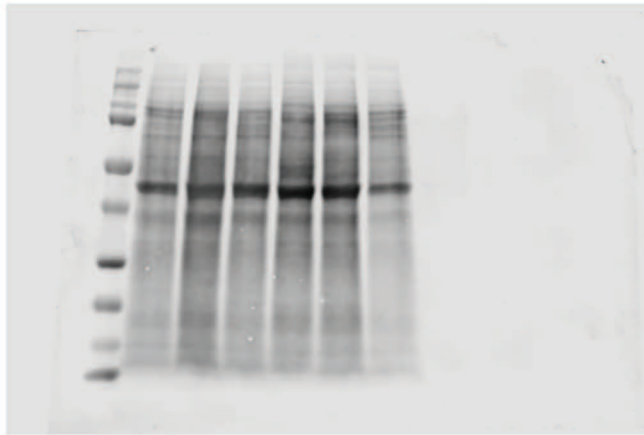

3 Uncropped blots for SIRT 1, SIRT 2, SIRT 3, acetylated tubulin, and the associated revert total protein
4 stain. The lanes used in the main text figure are labeled accordingly. All blots begin with a molecular
5 weight marker. Unused lanes are samples treated with a different compound unrelated to the work
6 presented here.
