

Fig. S3 Kaplan-Meier Survival Curves of PD patients and Non-PD patients of FUSCC according subgroups.

3a. Comparison of DFS between IDC and DCIS in PD patients of FUSCC.

3b. Disease Free Survival curves between IDC in PD Group and IDC in Non-PD Group.

3c. Disease Free Survival curves between DCIS in PD Group and DCIS in Non-PD Group.

The DFS of Fig. S3a was estimated by Log-rank test with a P value of 0.039.

The DFS of Fig. S3b was estimated by Log-rank test with a P value of 0.00067.

The DFS of Fig. S3c was estimated by Log-rank test with a P value of 0.011.

PD = Pagets' Disease; DFS=Disease Free Survival; IDC = Invasive Ductal Carcinoma; DCIS = Ductal Carcinoma In Situ.
