

Acknowledgments

The authors would like to express their gratitude to their family members for their sacrifices during this study. The authors are also thankful to the editors for providing the opportunity to publish this paper.

Authors' Contributions

Both authors contributed to conceptualizing the focus of the study, developing the econometric model, data mining and processing, conducting econometric analysis, and analyzing the significant findings of the study. Both authors examined and approved the final manuscript.

Funding

The authors did not receive any funding from any sources for conducting this study.

Availability of Data and Materials

All data generated or analyzed during this study could be obtained from the corresponding author upon request.

Conflict of Interests

The authors declare that they have no conflicts of interest associated with this publication.
