

Dear Editors,

We would like to submit the enclosed manuscript entitled “Elevated ILC3s-related inflammatory factors may promote tendinopathy”, which we wish to be considered for publication in “*Journal Orthopaedic Surgery Research*”. No conflict of interest exists in the submission of this manuscript, and manuscript is approved by all authors for publication. I would like to declare on behalf of my co-authors that the work described was original research that has not been published previously, and not under consideration for publication elsewhere, in whole or in part. All the authors listed have approved the manuscript that is enclosed.

Thank you and best regards.

Yours sincerely,

Yumin Wu
