

Themes	Code	Definition	Exclusion	Examples
Field Notes	Field Notes	Apply to the entire fieldnote section at the beginning of the transcript. this will then we double coded with any other codes that apply.		
Support/Care	Childcare support	Anyone helping with childcare	Mother caring for the baby should be coded under instrumental care	Other family members providing emotional care to the child
	Support in household chores	Anyone helping with household chores	Anything to do with childcare, e.g. washing child's clothes, goes under childcare support	
	General help	Help outside of household chores, e.g. running errands	Not childcare or household chores support	
	Emotional support	Mother getting emotional support	Mother giving emotional support to the baby should be coded under emotional care	
	Trust	Mother trusting or NOT trusting other family members to take care of the baby		Mother says she trusts neighbors over father-in-law
	Informational support on childcare	Mothers learning about childcare from a family member or friends		
Interaction	Positive social interaction	Any mention of a positive conversation, discussion with another human being		
	Negative social interaction	Any mention of a negative conversation, discussion with another human being		
	Common/frequent social interactions	Someone mother talks to usually or reaches out to when she wants to talk		E.g., I usually go to my neighbor to talk about my day

	Non-human interaction	YouTube, videos, music, etc.		
	No social interaction	Mother not interested in talking to anyone; silence		
Geospatial Movement	Transportation	Riding a motorcycle, riding a bus/micro, bicycle, etc.	Mentioning moving inside the home	
	Isolation	Mentioning being alone, not joining events or seeking out talking with others		
	Location- outside	Any indication of spending time in a location outside the home (neighbor's house, temple, market, etc.), and participating in social events (weddings, religious outings/going to temple, festivals, visiting family, etc.)	Only code if specifically referring to her own factual movements, not hypothetical or general.	
	Location- home	Indication of spending time inside her own home (not her maternal home).		
Child proximity	Instrumental care	Any specific mention of the mother providing tangible care to the child (washing, feeding, changing clothes, putting down to sleep, etc). double code if vague (look after/care for, etc)	Any other members providing childcare support to the mother should be coded under childcare support. Exclude moments when the mother is referring to parenting values.	
	Emotional care	Any mention of the mother providing or describing emotional or developmental care to the child (playing, soothing when crying, speaking, etc) double code if vague (look after/care for, etc)	Any emotional support that the mother gets from others should be coded under emotional support	

	Negative interaction/punishing child	Negative verbal or physical interaction with any child		
	Positive mother-child interaction	Positive verbal or physical interaction with any child, including massage.	Mothers' interaction with other people should be coded under positive social interactions	
	Breastfeeding	Any mention of breastfeeding (starting, stopping, tasks, difficulties, bonding, etc)	instrumental care?	
Activity	Household chores	Mentions of engaging in household work such cooking, cleaning, making tea, cleaning dishes, etc.	Other people helping mother with the household chores should go under support in household chores	
	Movement	Mentions of engaging in activities such as walking, running, dancing, riding a motorcycle, riding a bus/micro, bicycle, etc.		
	Waking/sleeping	Any mention of the mother waking up, going to bed, or napping		
	Food mealtimes	Any mention of food consumption, mealtimes, types of food, etc.	Exclude mentions of breastfeeding	
Mental and physical health	Positive emotions	Mention of positive affect/emotions (pride, joy, happiness, enjoyment, etc). Frederickson (2009) identifies the ten most common positive emotions as joy, gratitude, serenity, interest, hope, pride, amusement, inspiration, awe, and love.		
	Negative emotions	Mention of negative emotions/emotional states (fear, stress, sadness, depression, stress, worry, tension)		

	Violence	Mention of any emotional, psychological, or physical violence directed towards the mother		
	Fatigue	Any mention of feeling tired or fatigued		
	Physical health	Any mention of physical health and well-being		
	Identity	Mention of wanting to become a mother, what it was like now that she is a mother, or mentions of being a daughter-in-law, etc.		
	Coping/help seeking	Indicating coping strategies (dancing, listening to music, etc), seeking/asking for help at a health center, through friends, family etc, or purposefully NOT seeking help	If she is getting help/support, code under support/care meta code (emotional support, childcare support).	Compliance is the 'right thing to do'; buhari agency is limited in hierarchical family structures
	Parenting values	Mention of approaches to parenting (positive reinforcement, permissive, authoritative) or hopes and values to attain through parenting (shaping a 'good' child, etc).		
	Alcohol	Any mention of anyone drinking alcohol at any time		
	Cultural practices	Returning to natal home, oil massage, isolation/confinement, not celebrating particular holidays, etc. (examples can include mentions of sutkeri (mom that just gave birth, up until 6 months)		Sutkeri (mom that just gave birth, up until 6 months) (will not celebrate major holidays for 10 days)
